

## Business/Journalistic Paragraphs (Block Style) versus Narrative/Fiction Style

- **To get conventional narrative paragraphing in Word, go to “Page layout” tab.**
- **On menus, go to Spacing, and set everything to 0:**
- **Spacing:**
  - Before 0 pts**
  - After 0 pts**

This is the convention. If you have a reason to use block paragraphs, by all means, do it.

We need all the formatting expressiveness we can get in writing fiction: thus, extra space (by convention) indicates a passage of time.
